SOL Preparation

SOL testing will take place during the month of January. Below are several websites to use with your child for review and practice:

http://www.doe.virginia.gov/testing/sol/released_tests/

<http://education.jlab.org/solquiz/>

<http://www.solpass.org/released.php>

You can also contact your child's teachers to inquire about additional websites and testing strategies to use as students prepare for these assessments. A proper night's sleep and a hearty breakfast will foster better brain power and attention spans that will be needed during test days. For additional information about SOL testing, contact Ms. Dillow or Mrs. Love.

Winter is upon us and it will only get colder. Follow these do-it-yourself tips for staying warm in the winter!

1. Keep doors closed to unused rooms.
2. Heat a water bottle and place it at the foot of your bed before going to sleep.
3. Use an electric blanket while you sleep.
4. Make yourself a hot drink.
5. Invest in properly insulating your windows; seal leaks and drafts.
6. Leave the oven door open after you have finished baking/cooking (turn off the oven of course!)
7. Add humidity to your space; use a humidifier or leave the bathroom door open while you shower.
8. Put down a floor rug or wear slippers, or both!
9. Hug a family member for additional warmth!
10. Layer-up instead of turning up the heat.
