## The NRF Foundation

The NRF Foundation is the research and education arm of the National Retail Federation (NRF), the world's largest retail trade association. NRF represents an industry with more than 1.4 million U.S. Retail establishments, more than 23 million employees — about one in five working Americans — and 2004 sales of \$4.1 trillion. The Foundation, a non-profit foundation created in 1981, conducts industry research, develops education and workforce development programs, and promotes retailing as a career destination. The NRF Foundation benefits retailers, their associates and business partners and allies, and consumers in many ways. Research provides the basis for education about the industry and its importance to the economy and provides industry and government leaders with an analysis of public policy decisions on consumers, retailers, and the economy. The Foundation's education and career development efforts, including NRF University *wired*, encourage professional development and excellence in performance of retailing for associates and executives at all levels.
